# About Us

We know the pulse of employees and we tap the right strings

Our events are hosted by experienced and fun-loving professionals who are experts in HR and have engaged employees to imbibe the right culture and energy!

The list of events for your choice as follows.....

# Hand Pictionary

Employees will be divided into small groups of 3 where in they will be put in respective breakout rooms. They will be given a 3 letter English word to present it with their arms and or small things such as pencils, scale etc.. When each subgroup decide amongst themselves, they will present it to others. The letters may view jumbled as they go on the screen, but it would be a good guessing activity as to what is the word that is being communicated.

The first one to submit the right answer on the chat box would be the winner

# Instruct, Draw and Guess

In this activity there will be a minimum of two people in a group where one person will be given a picture and this group has to instruct the "artist" of the group to draw exactly as per their instructions.

For example if they are given a scenery with mountains and a sun, then they have to ask the artist of their group to draw a circle at the top left, triangles on the right etc... This activity will not involve colours. The artist would share "MS Paint" app from their desktop for this exercise so that the art is visible to others.

It is important to only have shapes as a part of the clue to the artist and no other words would be used to make things more fun.

# Grab and show

In this activity the participants are on the run and will listen to the host carefully for the series of items that they have to get it from their surrounding and present it in the same sequence. This is an independent game and will be active as participants would have a few mins time running around.

# Filmy Funda

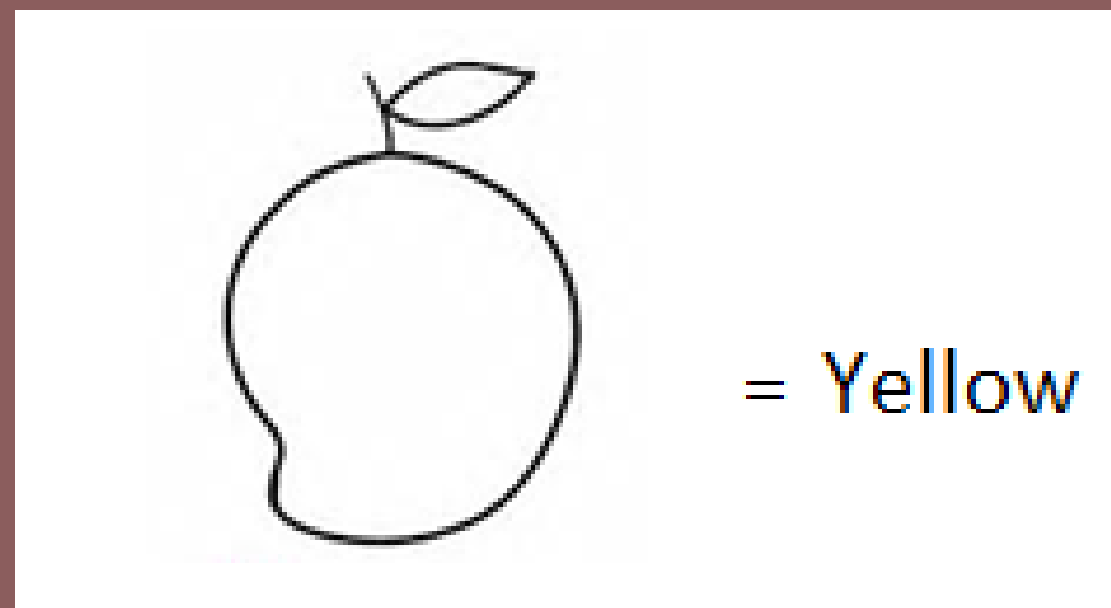

In this activity the participants will be divided into group of 3 each and each group will be given a movie name. The group mates should decide how they are going to communicate with others by using BGM, mannerisms of actors and drawing a clue which is related to the movie. Now they will get 30 secs each to do their part and the rest participants will be on mute.

Once all the three are done with communicating, the chat box will be open for the crowd and the first one to guess the film will be given points.

# Object to colour and colour to object

In this round each person will be given either a object or a colour, but when they present it to others they have to use the opposite to present.

Example if a participant is given the object as Apple, they have to use the word red and have the participants guess, whichever participant guesses apple will get the highest points.

Similarly if the participant is given the colour yellow, they can draw a mango shape and have the others guess which colour they are trying to communicate. They can also use the chat box option to answer.

# Origami round

In this activity the participants will be divided into groups and each group will be given a short origami tutorial to follow. The group that gets the fastest and accurate origami will be getting points

# Profile of our Event Specialist Team

Our event specialist team is an Employee Engagement Professional who knows how to mix team ethics with fun!
